RANGE OVERVIEW

Flooring & wall panels

Explore SPC, LVT and indoor WPC flooring, alongside large-format and profiled wall panels developed with Vietnamese manufacturers.

SPC flooring

Plank, tile and herringbone

LVT & WPC

Interior flooring

Wall panels

Hybrid and rigid-core systems

01 / FLOORING

Flooring

Begin with the SPC decor selection, then compare LVT and indoor WPC constructions for the project.

SPC	Selected wood looks, universal-plank herringbone and 400 × 800 mm stone-look tiles.
LVT	Dryback, loose-lay and multilayer vinyl constructions, with a selection of woven, stone and terrazzo looks.
Indoor WPC	Foam-core interior flooring in standard and press-bevel formats. Oak, walnut and patterned wood decors.

02 / WALL PANELS

Wall panels

Large-format reinforced hybrid panels and flat, slat and rounded rigid-core profiles. Choose from stone and marble, wood, fabric, leather, metal and plain finishes.

Reinforced hybrid	Large-format panels up to 1,220 mm wide, with matt or high-gloss finishes by design.
Rigid core	Flat hollow-core panels in 400, 600 and 950 mm widths, plus slat and rounded profiles.
Finishing	Groove-to-groove with metal trim or tongue-and-groove click, depending on the panel.
